## About This Game

### COMMUNITY-MADE MOD FOR RED ORCHESTRA 2/RISING STORM

Heroes of the West is a mod created by the RO2 community which brings the RO2/RS experience to the Western European theater, pitting the US forces against the German Wehrmacht. It also introduces a whole new faction, the British, bringing the 'Tommies' to the RO2 experience. The mod has been developed with support from the developers, Tripwire Interactive. It includes 4 new maps, 5 new character sets and 10 new weapons.

The initial release of Heroes of the West on Steam will feature 4 maps:

- Omaha Beach - The US 29th Infantry Division storm the bloody beaches of Normandy during the 'Longest Day', June 6th 1944, battling against well dug-in Wehrmacht troops of the 352. Infanterie-Division.
- Carentan - Immediately after the invasion of mainland Europe on D-Day, units of the US 101st Airborne division fought to capture the key town of Carentan from the Fallschirmjäger-Regiment 6. This was the first encounter between US airborne troops and their German counterparts in the Western Front theater.
- Port Brest - During the brutal fighting for the key port of Brest from 7 Aug to 19 Sept 1944, the 2 Fallschirmjäger-Division defend against the US 2d Ranger Battalion. This was an encounter between the best troops of both sides and involved bitter street to street battles.

- 
- Oosterbeek - Operation Market Garden was a bold attempt to get allied troops across the Rhine and into Germany before the end of 1944. In this map, troops of the British 1st Airborne defend the town of Oosterbeek against a mixed bag of German troops pushing into the key Rhine crossing at Arnhem, attempting to seize it back from the lightly armed British before the arrival of relieving mechanised ground forces.

Great ide, just sad that the only server with 10 players and above is always full. Great mod, but unfortunately no one plays it... Cannot seem to get the game to work. Says that I do not have the files in the same location :!, cannot find the downloaded HOTW file at all. Wish it would work from the get go..sigh  
. have you had enough of beating soviets in soviet russia ?  
now you can beat britains and americans in france .. .gg

9/10 would win again #Deutschland. I fully recommend this if you enjoy RO2/RS.

We run this on our server and it is incredibly fun, most popular map is Omaha Beach for good reason. The guys behind this have done a fantastic job. Can wait to see ewhat comes out over the coming months.

Definately a 10/10 !!!. Please fix this mod, it would be great!. PIp Stew Webster Tom Bruce and few more of you out there still.check out this great mod.

P.s there monents where you will fell like in the old days in Carentan.. It's a whole new game.The mod developers did an outstanding job with the game.. This mod is pretty good. It allows you to experience Red Orchestra 2 on the Western Front which I think is a pretty cool idea. It does have some problems but the dev's are trying their very best to frequently update their game and make it better. Infact Yesterday they did an update which adds in Regular British forces in the Caen Outskirts map.

This mod adds in new skins for the factions and also adds in Regular British infantry and the British 1st Parachute Brigade with their own weapons and gear.

There is some room to improve like there being a somewhat lack of servers but the community is growing and the mod is slowly getting better and better.

Overall I would recommend it if you are a fan of the Red Orchestra series .. Must Have Mod!

This almost fills the gap in my heart that DH left.. A fun addition of expansion size to Rising Storm/Red Orchestra 2. Set in the western front area of the war you will fight through french towns an wide open countryside lovingly created and crafted by the devs. Has all new voices (even some returning US voices cast from rising storm!) and a new faction! the British Forces. I would like to give this game a recommended rating, really.

But the servers are only usually full when clans from Bloodbath and other servers come to visit or try it out. Though if it did have full servers pretty much everyday I would give it a 10/10 would ( insert overused meme here ) but it is barely ever populated at all.

. A nice, free mod. It's especially good for levelling for Rising Storm.. One of the best modes ever created. you'll get shell shocked.
